PROXY STATEMENT  
-----

This Proxy Statement is furnished to the shareholders of HEICO Corporation ("HEICO" or the "Company") in connection with the solicitation of proxies by HEICO's Board of Directors for use at the Annual Meeting of Shareholders of HEICO to be held at the Sheraton Fort Lauderdale Airport Hotel, 1825 Griffin Road, Dania Beach, Florida 33004 on Tuesday, March 16, 2004 at 10:00 a.m., Eastern Standard Time. This Proxy Statement is first being mailed to shareholders on or about February 19, 2004.

At the annual meeting, the shareholders will be asked to elect a Board of Directors (Board) and to vote on any other business which properly comes before the meeting.

The Board of Directors of HEICO urges you to promptly date, sign and mail your proxy, or to use the telephone or Internet voting systems set forth in the proxy, in the form enclosed with this Proxy Statement, to make certain that your shares are voted at the meeting. Proxies in the enclosed or other acceptable form that are received in time for the meeting will be voted. However, you may revoke your proxy at any time by a revocation in writing or a later dated proxy that is received by HEICO; and, if you attend the meeting, you may vote your shares in person.

If your proxy is received in time for the meeting, it will be voted in the manner specified by you in the proxy. If you do not specify a choice, the proxy will be voted as indicated in the form of proxy.

HEICO will bear the expense of soliciting proxies in the accompanying form. Solicitations will be by mail, and directors, officers and regular employees of HEICO may solicit proxies personally or by telephone, telegram or special letter. HEICO will also employ D. F. King & Co., 48 Wall Street, New York, New York 10005, to assist in soliciting proxies for a fee of \$5,000 plus related out-of-pocket expenses.

Only holders of record of HEICO Common Stock, \$0.01 par value per share (the "Common Stock"), and Class A Common Stock, \$0.01 par value per share (the "Class A Common Stock"), at the close of business on January 20, 2004 will be entitled to vote at the meeting. On that date there were outstanding 9,691,095 shares of Common Stock, each entitled to one vote, and 14,154,973 shares of Class A Common Stock, each entitled to 1/10th vote per share.

VOTING REQUIREMENTS

The presence, in person or by proxy, of the holders of a majority of the voting power of the shares of all classes of the Company's common stock entitled to vote shall constitute a quorum at the annual meeting of shareholders. If a quorum is present, the affirmative vote of a majority of the voting power of the shares of all classes of the Company's common stock represented in person or by proxy at the annual meeting and entitled to vote on the subject matter at the annual meeting shall be required to elect members of the Board of Directors.

A proxy submitted by a shareholder may indicate that all or a portion of the shares represented by such proxy are not being voted by such shareholder with respect to a particular matter ("non-voted shares"). This could occur, for example, when a broker is not permitted to vote shares held in "street name" on certain matters in the absence of instructions from the beneficial owner of the shares. Non-voted shares with respect to a particular matter will be counted for purposes of determining the presence of a quorum but will not be counted as shares present and entitled to vote on such matter for purposes of voting, and therefore, will have no effect on matters brought to a vote

at the annual meeting. Shares voted to abstain as to a particular matter and directions to "withhold authority" to vote for directors, will be counted for purposes of determining the presence of a quorum and will be counted as present and entitled to vote with respect to such matter for purposes of voting, and therefore, will have the effect of votes against the matters brought to a vote at the annual meeting.

Under the terms of the HEICO Savings and Investment Plan (the Plan), all shares allocated to the accounts of participating employees will be voted or not voted by the trustee of the Plan as directed by written instructions from the participating employees, and allocated shares for which no instructions are received and all unallocated shares will be voted by the trustee of the Plan in the same proportion as the shares for which instructions are received. Voting instruction cards are being mailed to all participants in the Plan. If a participant also owns shares outside the Plan, the participant must return both the proxy card and the voting instruction card as indicated on those cards in order to cause all of their shares to be voted in accordance with their instructions. To be assured that the trustee will receive voting instruction cards on a timely basis, voting instruction cards for shares in the Plan must be duly signed and received no later than March 12, 2004. The total number of shares in the Plan as of the record date represents approximately 10.55% of the voting power of all classes of common stock outstanding as of the record date and entitled to vote at the annual meeting.

As previously indicated, nominating functions are handled by the Nominating and Executive Compensation Committee. At its next meeting scheduled immediately following the March 2004 annual meeting of shareholders, the Board of Directors plans to divide the functions of the Nominating and Executive Compensation Committee into two committees, namely, the Nominating and Corporate Governance Committee and the Compensation Committee, and will appoint committee members. The full responsibilities of the Nominating and Corporate Governance Committee are summarized below and detailed in its charter attached herein as Appendix C. The full responsibilities of the Compensation Committee are detailed in its charter attached herein as Appendix D.

The Nominating and Corporate Governance Committee will be appointed by the Board of Directors to assist the Board in identifying and recommending to the Board qualified individuals to be nominated as director; make recommendations concerning committee membership, appointments and director compensation; periodically review and recommend to the Board of Directors updates to the Company's Corporate Governance Guidelines; assist the Board and the Company in interpreting and applying the Company's Corporate Governance Guidelines and Code of Business Conduct; and to oversee the annual evaluation of management and of the Board of Directors.

Prior to nominating an existing director for re-election to the Board of Directors, the Nominating and Corporate Governance Committee will consider the existing director's independence, if required, skills, performance and Board and committee meeting attendance. The Nominating and Corporate Governance Committee will consider candidates recommended by shareholders (see the caption "Shareholder Proposals and Nominations" contained herein). In evaluating candidates for potential director nomination, the Nominating and Corporate Governance Committee will consider, among other things, candidates that are independent, if required; who possess personal and professional integrity; have good business judgment, relevant experience and skills; and who would be effective as a director in conjunction with the full Board in collectively serving the long-term interests of the Company's shareholders. All candidates will be reviewed in the same manner, regardless of the source of recommendation.

Each of the directors attended 75% or more of the meetings of the Board of Directors and committees on which he served in fiscal 2003. The Company does not have a formal policy regarding attendance by members of the Board of Directors at the annual meeting of shareholders, but it encourages directors to attend and historically, most have done so. Six of the seven members of the Board of Directors attended the 2003 annual shareholder meeting.

The non-management directors shall meet at least once per year in an executive session. The non-management directors shall elect a presiding director for each executive session among the chairs of Board committees on a rotating basis.

#### COMPENSATION OF DIRECTORS

Directors of the Company are required to purchase shares of HEICO common stock equivalent to one-third of their annual retainer (\$7,333). The Company accrues one-third of each directors' annual retainer and periodically purchases HEICO common stock on behalf of directors.

Directors receive director's fees of \$1,200 for each regular Board meeting attended and an annual retainer of \$22,000. Members of committees of the Board of Directors are paid a \$4,800 annual retainer for each committee served and \$800 for attendance at each committee meeting. In addition, committee chairmen are paid an annual retainer of \$1,800 for each committee chaired. During fiscal 2003, an aggregate of \$176,933 was paid or accrued to directors under the compensation arrangements described above (including \$49,551 to Samuel Higginbottom, \$33,695 to Wolfgang Mayrhofer, \$47,230 to Albert Morrison, Jr., and \$46,457 to Dr. Alan Schriesheim), excluding amounts to Laurans A. Mendelson, Eric A. Mendelson and Victor H. Mendelson, which are reported in the Summary Compensation Table. Per diem fees for other consulting services are paid to individual directors, as assigned by the Chairman of the Board, in the amount of \$600 per day. During fiscal 2003, \$78,000 was paid to Samuel Higginbottom for consulting services.

The Company's Directors' Retirement Plan, adopted in 1991 in order to facilitate Director retirements, covers the then current directors of the Company. Four of the current seven Directors are covered under the Directors' Retirement Plan. Under the Directors' Retirement Plan, participants will, upon retirement from the Board, receive annually the average retainer such Director was paid during his service as a member of the Board payable in quarterly installments. Such quarterly payments are not to be less than \$4,500. Subject to the terms of the Directors' Retirement Plan, these quarterly payments will continue for the same period of time that the participant served on the Board, not to exceed ten years. During fiscal 2003, \$34,000 was accrued, while amounts totaling \$36,000 were paid pursuant to the Directors' Retirement Plan.

#### RECOMMENDATION

THE BOARD OF DIRECTORS RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR EACH OF THE BOARD'S NOMINEES.

- (1) Salary and bonus amounts include amounts deferred by executive officers pursuant to a non-qualified deferred compensation plan available to selected employees. Under such deferred compensation plan, selected employees may elect to defer a portion of their compensation. Amounts deferred are immediately vested and invested in individually directed investment accounts. Earnings on such investment accounts, which are maintained by a trustee, accrue to the benefit of the individual.
- (2) Salaries for these executive officers, excluding Mr. Reum, were established in January 2001 and have not been increased since then.

## STOCK OPTION GRANTS IN LAST FISCAL YEAR

The following table provides information concerning individual grants of stock options pursuant to the Company's stock option plans made during the fiscal year ended October 31, 2003 to the Named Executive Officers. Information has been adjusted retroactively to give effect to a 10% stock dividend paid in shares of Class A Common Stock in January 2004. In addition, the table shows the potential realizable values of the grants assuming annual compounded common stock price appreciation rates of five and ten percent per annum over the maximum option term. The five and ten percent rates of appreciation are set by the rules of the Securities and Exchange Commission and are not intended to forecast possible future appreciation, if any, of the Company's common stock.

(1) Options granted vest 20% each year over five years.

(2) The potential realizable values (gains) do not consider the impact of income taxes to the option holder. ## FINANCE/AUDIT COMMITTEE REPORT

The Finance/Audit Committee (the "Audit Committee") of the Board of Directors is composed entirely of three non-employee directors. The Board of Directors has determined that each member of the Audit Committee is financially literate and independent in accordance with the New York Stock Exchange's listing standards and that Mr. Morrison is an "audit committee financial expert", as defined by the Securities and Exchange Commission.

The purpose of the Audit Committee is to assist the Board of Directors in fulfilling its responsibility for the oversight of the quality and integrity of the accounting, auditing, internal control and financial reporting practices of the Company and such other duties as directed by the Board. The full responsibilities of the Audit Committee are set forth in its formal written charter, which was adopted by the full Board of Directors in 1999 and most recently amended in its entirety in December 2003 and included herein as Appendix B.

Management is responsible for the Company's financial reporting process, including its system of internal control, and for the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. The Company's independent auditor, Deloitte & Touche LLP, is responsible for auditing those financial statements and for issuing an opinion as to whether those financial statements are, in all material respects, presented fairly in conformity with accounting principles generally accepted in the United States of America. The Audit Committee is responsible for monitoring and reviewing these processes, acting in an oversight capacity relying on the information provided to it and on the representations made by management and the independent auditor.

As part of fulfilling its responsibilities, the Audit Committee reviewed and discussed with management the Company's audited financial statements as of and for the year ended October 31, 2003 and discussed with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees". The Audit Committee received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees". The Audit Committee discussed and considered the independence of Deloitte & Touche LLP with representatives of Deloitte & Touche LLP, reviewing as necessary all relationships and services which might bear on the objectivity of Deloitte & Touche LLP. Deloitte & Touche LLP was provided with full access to the Audit Committee to meet privately and was encouraged to discuss any matter it desired with the Audit Committee or the full Board of Directors.

Based upon the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended October 31, 2003, for filing with the Securities and Exchange Commission.

Respectfully Submitted by the Finance/Audit Committee of the Company's Board of Directors: Samuel L. Higginbottom, Albert Morrison, Jr. and Dr. Alan Schriesheim.

## NOMINATING AND EXECUTIVE COMPENSATION COMMITTEE REPORT

### THE COMMITTEE

The Nominating and Executive Compensation Committee (the "Compensation Committee" or "Committee") consists entirely of independent Directors who are not current or former employees or officers of the Company or any of its' affiliates. The Compensation Committee generally makes all decisions concerning the Company's executive officers' compensation and all such decisions are reviewed by the full Board, except that decisions about awards under the Company's 1993 and 2002 Stock Option Plans are made by the Stock Option Plan Committee (the "SOC") and are further ratified by the Committee and the Board.

### COMPENSATION PHILOSOPHY

The Compensation Committee has for many years used the following targets in setting compensation: (i) increases in both the Company's income and shareholder value; (ii) alignment of stockholder and management interests to the greatest extent reasonable; (iii) management focus on the Company's long-term growth, while considering the Company's short-term interests; (iv) attracting and retaining a high quality management team; (v) stimulation of both entrepreneurial and team objectives; and (vi) recruiting and retaining top managers in a continuing competitive compensation market. The Compensation Committee believes that these objectives are all crucial in building and growing the Company and that the Company has been well served over the long term by ensuring that these objectives are met. In reviewing these objectives in 2003, the Compensation Committee again concluded that the objectives are sound and time-tested.

Historically, the Company has refrained from paying large base cash compensation and has paid cash bonuses when the Company recognized quantitative earnings improvements. It has also been the Compensation Committee's practice to accept executive officers' recommendation that they not receive base salary increases in weaker financial years for the Company. Accordingly, all of the base salaries paid to executive officers remain at the levels set in January 2001 and have not increased since then. The executive officers requested, and the Compensation Committee agreed, that in 2003 and 2002, no regular cash bonuses be paid to them because some of the Company's businesses suffered following the external effects like the Iraq War, SARS and the September 11th attacks which harmed the Company's income.

The Compensation Committee accepted this recommendation in 2003 and paid no bonuses to executive management. In 2002, the Committee did not award regular cash bonuses to executive officers. As noted in last year's report, in 2002 the Committee awarded the remaining bonuses from the gain on the sale of its former Trilectron Industries, Inc. (Trilectron) subsidiary (discussed in the next paragraph) that were not paid in 2000. The Compensation Committee and the executive officers followed a similar approach in 2001 and in 1999 when, despite continuing record financial performance in 1999 by the Company, no cash bonuses were paid to any of the Company's executive officers. In 2000, the Company sold Trilectron for a substantial gain. In 2000, the Company paid cash bonuses to the executive officers contingent upon Trilectron's successful and profitable sale, but refrained from paying all of the amounts it reserved for these bonuses until such time as it could finally calculate the total sale gain due to expiration of certain contractual contingencies related to the sale. In the second quarter of fiscal 2002, when the gain became fully calculable, the Compensation Committee paid the balance of these bonus funds to several Company employees, including its executive officers.

As was the case with other Company employees, certain executive officers received stock options in 2003. The Compensation Committee firmly believes that stock options encourage managers to maximize the Company's stock price by working diligently to increase earnings in order to increase shareholder value. The Compensation Committee also believes that a company's stock price is usually driven by strong earnings and earnings growth and that this philosophy has led to a 535% increase in the Company's Common Stock price from 1993 to 2003, and net income improved from \$984,000 to \$12,222,000 over the same period. In addition, stock options limit the Company's cash outlay because the Company may pay less cash compensation to grantees when they receive some of their compensation in options to purchase Company stock. Also, stock options yield profit for officers only when other shareholders benefit. Numerous publicly-held corporations issue stock options to their employees and the

Compensation Committee believes that the Company should do so in order to remain competitive in retaining and attracting employees.

Stock option holders do not receive any income or other benefit from their stock options unless all of the Company's shareholders gain from an increase in the Company's stock price above the option exercise price since options are granted at fair market value of the stock on the grant date. If management's efforts do not result in a share price increase, management will not earn potentially sizeable financial gains, and those gains typically represent a substantial income expectation for them.

#### RELATIONSHIP TO PERFORMANCE UNDER COMPENSATION PLANS

Compensation paid to the Company's executive officers in 2003, as reflected in the foregoing tables, consisted primarily of base salary, which has not increased since January 2001 and Company contributions to the HEICO Savings and Investment Plan (the "Savings and Investment Plan"). All employees of the Company and certain subsidiaries are eligible to participate in the Savings and Investment Plan, but, under federal regulations, certain employees of the Company (including Laurans A. Mendelson, Thomas S. Irwin, Eric A. Mendelson and Victor H. Mendelson) are limited in their participation. Further, all officers listed herein who are eligible to participate in the Savings and Investment Plan contributed a portion of their compensation to the Savings and Investment Plan in order to receive the maximum of the Company's contribution.

The executive officers' base salaries have not been increased since January 2001, or approximately 3 years. The Compensation Committee determines executive officers' base salaries through a variety of means, including by using comparative industry data and evaluating earnings growth.

In paying the remaining bonuses related to the Trilectron sale, the Compensation Committee wished to adhere to its commitments to pay the full bonuses it planned to pay prior to when the sale occurred, as the Company completely earned the gain from Trilectron's sale and it was not reduced due to current business conditions. The Company sold Trilectron for a substantial gain after having grown the business to approximately four times the size it was when HEICO acquired it in 1996. The strategy and its execution for acquiring, growing and selling Trilectron were devised entirely by the executive officers. By sending a clear message to the executive officers that they would receive bonuses upon realizing large gains for the Company, the Compensation Committee believes that it demonstrated to the executive officers that they will be rewarded for making good financial decisions.

In leaving the base salaries of the Company's executive officers unchanged in 2003, the Compensation Committee accepted the executive officers' recommendation that they not receive increases due to conditions in the airline industry. The Compensation Committee typically considers the following in establishing compensation: prevailing executive compensation trends; compensation analysis reports from Watson Wyatt & Company, an independent consulting firm; consultation with executives; known industry standards; local and national compensation practices; alternative employment opportunities available to executives; industry knowledge and experience; complexity and difficulty of responsibilities; special gains upon asset sales and past and expected future contributions to the Company's development.

The Compensation Committee has observed the current management team for more than a decade and has concluded that its compensation policies have appropriately rewarded and incentivized management for its successes and efforts. Although this is the case, the Compensation Committee will review compensation practices during the year and may, depending upon conditions in its businesses and other factors, alter its policies.

#### CHIEF EXECUTIVE OFFICER

The Compensation Committee considers the Chief Executive Officer's compensation each year. The principal standards which the Compensation Committee considers for the Chief Executive Officer's compensation are essentially the same as those described for the executive officers in general. Also, the Compensation Committee evaluates past performance, the Chief Executive Officer's ability to deliver anticipated results and expected future contributions to the Company's growth. The Committee also accepted Mr. Mendelson's request, made in part as an example of leadership to the Company's Team Members following the downturn in the Company's business during

the Iraq War and the SARS crisis, that he receive no regular cash bonus in 2003 and that he receive no increase in his base compensation. This followed the same recommendation from Mr. Mendelson in 2002 due to the effects on the Company of the September 11, 2001 tragedies. The Committee continues to take note of the fact that the Company has grown dramatically under Mr. Mendelson's leadership; as noted above, the Company's sales increased from \$25,882,000 in fiscal 1993 to \$176,453,000 in fiscal 2003, while net income improved from \$984,000 to \$12,222,000 during the same period.

The Company has prospered substantially under Mr. Mendelson's leadership. Specifically, the Company has expanded its aerospace product line following a restructuring of its aerospace operations, and it has successfully entered and sold two new, profitable lines of business, which grew substantially after their acquisitions by HEICO. Under Mr. Mendelson's leadership, the Company has completed key strategic alliances with five major airlines and twenty-two important strategic acquisitions, has completed a follow-on stock offering which raised \$56 million in equity for the Company and has successfully negotiated a \$120 million credit facility with a syndicate of banks.

The Compensation Committee believes it is important to continue to induce Mr. Mendelson to devote substantially all of his professional time and effort to the Company and to forego other potentially lucrative business transactions. In doing so, the Committee has considered Mr. Mendelson's other successful business activities unrelated to the Company and has provided him incentives to devote attention to HEICO.

Further, the Company's commercial bank has required that the Company retain Mr. Mendelson's services in order to obtain and retain its revolving credit facility. The Company's lender has also required that Mr. Mendelson and his family maintain substantially all of their present ownership position in the Company in order to retain the revolving credit facility. These requirements were made at the lender's sole request as part of the Company's loan agreement with the lender. Accordingly, the Board believes that it is essential to ensure Mr. Mendelson's continued management of the Company by providing him with sufficient incentive to remain as the Company's Chief Executive Officer and to induce him to maintain his significant investment in the Company.

The Committee believes that equity ownership by management is essential because it ensures that management will understand shareholder interests. Mr. Mendelson has made a substantial equity commitment to the Company and the Committee considers this factor in establishing Mr. Mendelson's compensation level.

#### 2003 STOCK OPTION GRANTS

As it has consistently stated for many years, the Compensation Committee believes that stock options are an important way to align shareholder and management interests because such options will cause managers to reap economic reward only if other shareholders gain. Further, in order to compete with other, larger corporations and with technology businesses for high-quality acquisitions and management talent, the Compensation Committee understands that the Company must supply its managers with the opportunity to realize large financial gains upon the successful implementation of their goals and objectives. Therefore, the Compensation Committee awarded stock options to certain executive officers, as described in the foregoing tables.

Submitted by the Compensation Committee of the Company's Board of Directors:  
Samuel L. Higginbottom and Albert Morrison, Jr.

#### EMPLOYMENT AGREEMENTS

Thomas S. Irwin and the Company are parties to a key employee termination agreement which provides a lump sum severance payment equal to two years' compensation if his employment is terminated within three years after a change in control of the Company (as defined in the key employee termination agreement).

## SELECTION OF INDEPENDENT AUDITOR

The Finance/Audit Committee is responsible for selecting the Company's independent auditor and expects to finalize its decision in its next regularly scheduled meeting following the annual meeting of shareholders, which is currently scheduled in May 2004. While the Finance/Audit Committee cannot be certain that it will again select Deloitte & Touche LLP, the firm has served as the Company's independent auditor since fiscal 1990.

One or more representatives of Deloitte & Touche LLP are expected to be present at the annual meeting on March 16, 2004. The representatives will have the opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions from shareholders.

### PRE-APPROVAL OF SERVICES PROVIDED BY THE INDEPENDENT AUDITOR

The Finance/Audit Committee (the "Audit Committee") has adopted a policy to pre-approve all audit and permissible non-audit services provided by the independent auditor. The Audit Committee will consider annually and, if appropriate, approve the scope of the audit services to be performed during the fiscal year as outlined in an engagement letter proposed by the independent auditor. For permissible non-audit services, the Company will submit to the Audit Committee, at least annually, a list of services and a corresponding budget estimate that it

recommends the Audit Committee engage the independent auditor to provide. To facilitate the prompt handling of certain unexpected matters, the Audit Committee delegates to its Chairman the authority to approve in advance all audit and non-audit services below \$10,000 to be provided by the independent auditor if presented to the full Audit Committee at the next regularly scheduled meeting. The Company will routinely inform the Audit Committee as to the extent of services provided by the independent auditor in accordance with this pre-approval policy and the fees incurred for the services performed to date.

## HEICO CORPORATION

## CORPORATE GOVERNANCE GUIDELINES

## ROLE AND FUNCTIONS OF THE BOARD OF DIRECTORS

The role of the Board of Directors (the "Board") with respect to corporate governance is to oversee and monitor the Company's management in the interest and for the benefit of the Company's shareholders. To fulfill this role, the Board or a Board committee must perform the following primary functions:

1. oversee the conduct of the Company's business to evaluate whether the business is being properly managed;
2. review and, where appropriate, approve the Company's major financial objectives, plans and actions;
3. review and, where appropriate, approve major changes in, and determinations of other major issues respecting the appropriate auditing and accounting principles and practices to be used in the preparation of the Company's financial statements;
4. assess major risk factors relating to the Company and its performance, and review measures to address and mitigate such risks;
5. evaluate regularly the performance and approve the compensation of the CEO and, with the advice of the CEO, evaluate regularly the performance of the Company's principal senior executives; and
6. plan for succession of the CEO and monitor management's succession planning for other key executives.

In discharging these obligations, directors should be entitled to rely reasonably on the honesty and integrity of their fellow directors and the Company's executives and its outside advisors and auditors. The directors shall be entitled to (i) reasonable directors' and officers' liability insurance on their behalf; (ii) the benefits of indemnification to the fullest extent permitted by law under the Company's charter, by-laws and any indemnification agreements; and (iii) exculpation as provided by state law and the Company's charter.

The Board may discharge its responsibilities either directly or by delegating them to its committees, except that the Board may not delegate any of its responsibilities which, under applicable law or the Company's restated certificate of incorporation, may not be delegated to a committee of the Board. The Board and each Board committee shall have the full power and authority to hire, at the expense of the Company, independent financial, accounting, legal or other advisors, as necessary to fulfill their duties, without consulting or obtaining the approval of any officer of the Company.

The Board should promote policies within the Company that encourage a corporate culture of openness, honesty, fairness and accountability. These policies also should apply to the Board and to relationships among and between the Board, stockholders and employees. The Board should periodically review and amend these policies if needed.

The Board should recognize that the actual management of the business and affairs of the Company should be conducted by the CEO and other senior managers under his or her supervision and that, in performing the management function, the CEO and other senior managers are obliged to act in a manner that is consistent with the oversight functions and powers of the Board and the standards of the Company and to execute any specific plans, instructions or directions of the Board.

## DIRECTOR QUALIFICATIONS

**Independence:** The Board shall have a majority of directors who meet the independence criteria adopted by the Board. The independence criteria are discussed below under "Director Independence."

**Qualifications:** A director should possess personal and professional integrity, have good business judgment, relevant experience and skills and be an effective director in conjunction with the full Board in collectively serving the long-term interests of the Company's stockholders. Directors should be committed to devoting sufficient time and energy to diligently performing their duties as directors.

**Size of Board:** The Board shall determine the appropriate size of the Board within the requirements of the Company's Charter and Bylaws.

**Selection Process:** In accordance with the policies and principles in its charter, the Nominating and Corporate Governance Committee is responsible for identifying and recommending potential director nominees to the Board for its approval. The Chairman of the Nominating and Corporate Governance Committee and the Chairman of the Board shall extend an invitation to a new potential director nominee to join the Board.

**Annual Review of Independence and Qualifications:** The Nominating and Corporate Governance Committee shall distribute annually a self-evaluation to the Board that includes an assessment of the directors' independence and qualifications.

**Resignation from the Board:** A director should tender a resignation in the event there is a substantial conflict of interest between the director and the Company or the Board and such conflict cannot be resolved to the satisfaction of the Board.

**Refusal when Conflict of Interest:** Prior to any Board discussion or decision related to any matter that potentially affects a director's personal, business or professional interests, that director should (i) disclose the existence of the potential conflict of interest to the Chairman of the Board and (ii) if the Chairman of the Board. (in consultation with legal counsel) determines a conflict exists or the perception of a conflict is likely to be significant, refuse himself or herself from any discussion or vote related to the matter.

**Term Limits:** The Board does not believe it should establish term limits. The Company and its stockholders both benefit from Board continuity and stability and by allowing directors to focus on long-term business strategies and results.

## DIRECTOR INDEPENDENCE

A majority of the Board and all members of the Finance/Audit Committee, Compensation Committee, and the Nominating and Corporate Governance Committee shall be independent. The Board must make an affirmative determination whether or not a director is independent and disclose this determination in the annual proxy statement.

The term independent is defined in accordance with the New York Stock Exchange ("NYSE") independence requirements, the Sarbanes-Oxley Act and the Board's business judgment. A director is deemed to be independent if he or she does not have a direct or indirect material relationship with the Company or any of its affiliates or with any senior management member of the Company or any of its affiliates. In determining the materiality of a relationship and the director's independence, the Board shall be guided by the following independence standards:

A director shall be deemed to have a material relationship with the Company and/or its affiliates and thus shall not be deemed independent if, within the past three years:

- . The director is or has been employed by the Company or its affiliates;
- . An immediate family member (defined below) of the director is or has been employed by the Company or any of its affiliates as an officer;
- . The director is or has been affiliated with or employed by the Company's or any of its affiliate's present or former independent auditor;
- . An immediate family member of the director is or has been employed by the Company's or any of its affiliate's present or former independent auditor as a partner, principal or manager; or
- . An executive officer of the Company serves on the compensation committee of a company which employs the director, or which employs an immediate family member of the director as an officer.

Other material relationships in which the director shall not be deemed to be independent are:

- . The director or an immediate family of the director is a director, officer, general partner or large equity holder of a significant (as defined below) customer of or supplier to the Company and/or its affiliates of nonprofessional services and goods;
- . The director or an immediate family member of the director is a director, officer, general partner or large equity holder of a significant (as defined below) paid adviser, paid consultant or other paid provider of professional services to the Company or its affiliates, or to any senior management member of the Company; or
- . The director or an immediate family member of the director is a director, officer or trustee of a charitable or tax-exempt organization to whom the Company, one of its affiliates or any senior management member of the Company or its affiliates makes substantial charitable contributions.

In the following circumstances, the material relationships shall be deemed immaterial and thus the director shall remain independent:

- . A director who serves as an Interim Chairman or Interim CEO of the Company shall not be deemed a former employee for the purpose of determining independence and as such, the director shall retain his independent status when his service as Interim Chairman or Interim CEO ends;
- . The material relationship that is based on having an immediate family member of the director serving as an officer of the Company or an officer of a Company affiliate shall be deemed immaterial upon the death or incapacitation of that immediate family member; or
- . The material relationship that is based on the director's or the director's immediate family member's connection to a significant customer, supplier or provider of the Company or its affiliates shall be deemed immaterial, if the Board in its business judgment determines that the commercial transactions between the Company or one of its affiliates and the significant customer, supplier or provider were conducted at arm's length in the ordinary course of business and that such a relationship is immaterial in light of all circumstances.

For any relationships not covered above, the determination of whether these relationships are material or not and whether the director would be independent or not, shall be made by the directors who satisfy the independence standards set forth in this section. In making these determinations, the Board shall examine all factors that may appear to affect independence, including commercial, industrial, financial, banking, legal, accounting, charitable, familial relationships and long-standing friendships.

The Company and its affiliates shall not make any personal loans or extensions of credit to directors or executive officers. The payment of consulting, advisory or other compensatory fees (except for fees paid to directors as their compensation for Board and/or Committee service, pension or other forms of deferred compensation for prior service) above \$100,000 to a director or immediate family member from the Company or one of its affiliates shall negate the director's independence until three years after receipt of such compensation has ceased.

Each director has an affirmative obligation to inform the Board of any material changes in his or her circumstances or relationships that may impact his or her designation by the Board as "independent."

In addition to the foregoing provisions, members of the Finance/Audit Committee must satisfy additional requirements to be considered independent as provided for by the SEC and NYSE rules.

For the purposes of these independence standards guidelines, the terms:

- . Affiliate means any corporation or other entity that controls, is controlled by or is under common control with the Company, as evidenced by the power to elect a majority of the Board or comparable governing body of such entity;
- . Immediate Family Member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares such person's home; and
- . Significant means payments to or from an entity where the payments exceed the greater of \$1 million, or two percent of the entity's annual consolidated gross revenues.

Under Section 162(m) of the Internal Revenue Code, as amended, a director is an outside director if the director

- . is not a current employee of the Company;
- . is not a former employee of the Company who receives compensation for prior services (other than benefits under a tax-qualified retirement plan) during the taxable year;
- . has not been an officer of the Company; and
- . does not receive remuneration from the Company, either directly or indirectly, in any capacity other than as a director.

## BOARD MEETINGS

The Board expects to have four regularly scheduled meetings each year. Upon adequate notice, unscheduled meetings may be called throughout the year as the need arises. The Chairman of the Board shall consult with other Board members in determining the times and duration of the Board meetings.

**Meeting Attendance:** Directors are expected to attend meetings of the Board and of the committees on which they serve. Directors also are expected to devote an adequate amount of time and effort to discharge properly their responsibilities.

**Board Materials:** Information and data that are important to the Board's understanding of the business to be conducted at a Board or committee meeting should be distributed to the directors sufficiently in advance of the meeting to permit their review. A director may request that the CEO or appropriate member of senior management present to the Board specific information as it relates to the Company and its operations.

**Non-Management Executive Session of Directors:** The non-management directors shall meet at least once per year in executive session at regularly scheduled meetings. The non-management directors shall elect a presiding director for each executive session among the chairs of board committees. The procedure for selecting a presiding director shall be disclosed in the annual proxy statement, together with a system for interested parties to communicate directly with the non-management group.

## BOARD COMMITTEES

The Board shall have at all times a Finance/Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. All members of these Committees shall be independent directors as determined by the Board in accordance with the aforementioned independence criteria. Committee members shall be appointed by the Board upon recommendation (after consultation with the Chairman) of the Nominating and Corporate Governance Committee.

The Finance/Audit Committee, Compensation Committee and the Nominating and Corporate Governance Committee each shall have a written charter that sets forth the committee's structure, membership qualifications, purposes, responsibilities, and procedures for appointing and removing committee members. The charters also shall provide that each committee annually evaluates its performance. The Board may, from time to time, establish or maintain additional committees of the Board, including an Executive Committee. An Executive Committee will have the powers and authority as specified in the Company's by-laws.

Any director may attend any committee meetings, whether or not he or she is a member of that committee, providing that he or she has obtained pre-approval to attend from the committee chair or a majority of the committee.

## CHAIRMAN OF THE BOARD

The Board will appoint the Chairman of the Board who can be an employee of the Company. The Chairman will chair all regular sessions of the Board and set the agenda for Board meetings, subject to the right of each Board member to suggest the inclusion of item(s) on any agenda.

## DIRECTOR COMPENSATION

All directors shall receive directors' fees as compensation for Board and/or Board committee service. Directors' fees shall be in the form of cash, company stock, including options and restricted stock, or combination thereof, as well as any additional benefits regularly given to all directors. The exact amount and form of director compensation shall be determined and reviewed annually by the Compensation Committee in accordance with the policies and principles set forth in its charter.

All directors must receive annual director education in subjects relevant to the duties of a director including the study of corporate governance best practices or ethics.

The Compensation Committee shall conduct an annual review of the CEO's performance and compensation, as set forth in its charter. The Nominating and Corporate Governance Committee shall make an annual report to the Board on emergency as well as expected CEO succession planning. The entire Board shall work with the Nominating and Corporate Governance Committee to nominate and evaluate potential successors to the CEO. The CEO shall provide the Committee with his or her recommendations and evaluations of potential successors, along with a review of any development plans recommended for such individuals.

## ANNUAL SELF-EVALUATIONS

The Nominating and Corporate Governance Committee shall have responsibility for conducting and overseeing the annual self-evaluations for the Board and its members and reporting the results to the Board following the end of each fiscal year. The evaluations will be based on such objective and subjective criteria, as the Board deems appropriate.

## CODE OF BUSINESS CONDUCT

The Board shall adopt and maintain the Code of Business Conduct (the "Code") for the directors, officers and employees of the Company in compliance with the NYSE requirements. The Code shall be posted on the Company's website.
